THE WOMEN INSPECTORS.

thing of their Summer's Work In-specting Baggage from Abroad. It was remarked in the Custom House resterday that Surveyor Beattle's accou plished staff of women inspectors was as ener-getic and industrious as any corps of officers in the Government service. The history of their work during October shows that they her work during October shows that they have examined 11,174 pieces of baggage, cov-sred by 2,206 baggage entries made by women passengers, from whom were collected on the wharf 86,718,66 in duties. This was collected from women passengers without male escorts, and there were eighty-six of these passengers on one vassel.

and there were eighty-six of these passedners on one vessel.

It was suggested that this record was particularly bright when it was recalled that the inspectors have been greatly hindered in their duties by the new order, which requires them to use what are known as "the pink plasters" in marking baggage. These plasters are gummed by what is spoken of as contract mucilage, which doesn't stick, and makes a repetition of the operation frequently necessary. Informer days the Inspectors marked the baggage with chaik. It was stated that the old system greatly eased the labors of the inspectors, and was just as efficient, and perhaps more so than the "pink plaster," which entailed the use of ink and a patent sponge with which to moisten the plasters.

HITCHCOCK'S REAL ESTATE OFFICE, 14 CHAMBERS ST., N. Y.

NO. 8. DETERMINATION. Sometimes called "Obstinacy."

A gentleman who had previously bought one of our forty-dollar business suits stepped into the store and inquired if the suit was really made of imported goods. After being assured that it was, he said that he met a friend who was wearing a custom suit identically like his, and for which a much higher price had been paid; a discussion arose as to which was the best suit, with the conclusion that our customer had a "bargain."

We use this real incident to illustrate how fine Clothing we produce. We have quantities of suits at \$20, \$25, \$28, \$30 and \$35, any of which would do credit to the skill of a merchant tailor. In Overcoats the range is equally extensive-Royal Astrakhan, Montagnacs, silk-lined throughout, \$55; finest imported fur Beavers, \$42 and \$45. Domestic Beavers, as good as the foreigners for service, \$35, \$28, \$25--cheaper ones, of course.

Unless you are "determined" not to be convinced, we think we can demonstrate that our best goods are quite equal to the custom work and much less expensive.

Both stores open this evening until 10 o'clock.

OPEN THIS EVENING UNTIL 10:30. Saved His Leg

SCROFULA

THE SWIFT SPECIFIC GO. Adjanta Ga:
Gentlemen I have been afflicted with pleeration of the legs ever since I was a child, the disease undoubtedly being bereditary, as my
mother suffered from scrotdoins symptoms. As
I advanced to manhood my affliction increased
intil the instanty became harasing and painful
beyond the power of words to describe. My
right leg particularly became farsfully involved
the left leg being less painfully affected Finally,
about feurieen years ago, the picers on my
right leg had eaten through the flesh into the
bone. In order to save my life the doctors determined to ampitate my leg below the gase.
The operation was successfully performed by
me only temporary relief. The poison was
still in my system and soon began to show itself
again. In a short time after large ulerar appeared on my left leg, covering it from the knee
to the instep. Frequently while at work I could
be tracked by the blood which cozed from the
huge ulers, and the sores and rottening holes
were so ofensive that my fellow workmen could
hot stand the stench and would move away from
me
Last winter I was perspaded to try S. S. S.

were so oberasive that my serior hot stant the stone had would move away from the stone in the stone had would move away from the stone had been and would move away from a last effort I consented to do so, and about seven months ago I began taking the specific. I soon began to leek the good effects of the medicine, the offensive running began to grew less and less and finally ceased the ticers healed, my desh became firm and solid, and to day, after using twenty one bottles I am as hale and stone a man of my age as there is in deorgia and seventy one years old set there is in deorgia and seventy one years old when I was twenty diversed to the least the secretary of the season of the terrible disease or to remind me of the torture I suffered for so many years, except the scars of the perfectly healed uicers
I want the world to know of the almost miraculous cure effected on me by S. S. and I call upon those who wish to know the particulars directly from me to write, and I will consider it a pleasure as well as a duty to answer their letters. I refer to Dr. W. P. Bond of Lithonia as to the truth of my statement.

Very gratefully yours.
